Quality, Design and Innovation

New integrated Frenchdoor fridge-freezer with BioFresh: ECBN 6256

The new 91 cm wide, Frenchdoor fridge-freezer ECBN 6256 is definitely a design highlight in any kitchen and, with Liebherr's BioFresh technology, it's a healthy choice too! BioFresh technology guarantees the best possible environment for lasting freshness, which is really important because the freshness and quality of the food that we eat plays a key role in our health and well-being.

Integrated lighting columns on either side of the appliance interior provide perfectly even illumination, and high-quality GlassLine fittings lend elegance to the interior design. The two freezer drawers extend effortlessly on premium-quality telescopic rails, and the plumbed-in IceMaker provides sophisticated ice cubes for whatever the occasion.

The **versatile bottle shelf** above the BioFresh drawers can be used either as a bottle shelf or a glass storage shelf, both are stored in the recess. The interior features two **integrated lighting columns** with multiple LEDs to evenly illuminate the interior. The lighting columns also facilitate the variable positioning of the glass shelves.

The **SoftSystem**, in pristine white, is integrated into the door to cushion movement as the door is shut, ensuring that the door closes gently, even with fully-loaded door shelves. The door closes automatically from an opening angle of approx. 30°.

Extra-wide BioFresh food storage centre: ECBN 6156

The new 91-cm-wide, built-in BioFresh fridge-freezer ECBN 6156 PremiumPlus (net capacity 471 litres) is a real eyecatcher! Available with door-on-door installation that gives customised integration into kitchen design, and two freezer drawers that easily extend on premium-quality telescopic rails, this built-in masterpiece is a design highlight for any kitchen. The large

refrigerator compartment and adjacently arranged BioFresh drawers, together with the NoFrost freezer compartment offer optimum storage for all types of food. The integral IceMaker supplies ice cubes for every occasion, whilst the integrated water filter ensures optimum ice quality.

The innovative **electronic controls** ensure that the selected temperature is accurately maintained. Thanks to the ingenious touch interface, all functions can be set with ease. The temperature in the refrigeration and freezer compartments can be read from the MagicEye digital display on the LCD. The PremiumPlus interior features **LED light columns** integrated on either side of the compartment liner.

The professional **NoFrost technology** from Liebherr makes defrosting a thing of the past. The **IceMaker** with fixed water connection provides you with a constant supply of ice cubes for every occasion. The two **pull-out freezer drawers** are mounted on high-quality **telescopic rails** and can be effortlessly extended to provide a perfect view and ideal storage conditions.

BioFresh drawers provide the perfect storage climate for you to enjoy long-lasting freshness. When stored at a temperature slightly above 0°C and at the correct humidity level, fruit and vegetables, meat, fish and dairy products all retain their vitamin content, delicate flavour and appetising appearance for significantly longer than in a standard refrigerator.

The new innovative food storage centre: ECBN 5066

The 76-cm-wide ECBN 5066 food centre creates a stunning visual impact in any kitchen environment. As the doors open, the interior also reveals a host of innovative ideas, LED lighting, BioFresh drawers mounted on telescopic rails, together with the NoFrost

freezer compartment offers optimum storage for all food types. The integral IceMaker supplies ice for every occasion, whilst the integrated water filter ensures optimum ice quality.

BioFresh drawers provide the perfect storage climate for you to enjoy long-lasting freshness. When stored at a temperature slightly above 0 °C and at the correct humidity level, fruit and vegetables, meat, fish and dairy products all retain their vitamin content, delicate flavour and appetising appearance for significantly longer than in a standard refrigerator. The DrySafe, with a low humidity level, is ideal for storing meat, fish and milk products.

ECBN 5066 comes with an **LED lighting column** on each side of the inner door, which incorporates multiple LEDs to evenly illuminate the appliance interior. A special satin-finish on the light cover creates an appealing and sophisticated lighting effect. The lighting column also facilitates the variable positioning of the glass shelves.

The **NoFrost** system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. This innovative technology creates a much larger storage capacity and keeps the freezer constantly frost-free, making defrosting a thing of the past.

Frenchdoor fridge-freezers with BioFresh and NoFrost: CBN(es, be) 6256

The Food Storage Centres CBN(es, be) 6256 with their elegant Frenchdoor concept are a focal point in any kitchen, open or closed. The interior presents a host of innovative ideas. Take the LED interior light and the automatic IceMaker with fixed water connection in the freezer compartment, for example. Or the two BioFresh drawers, which keep food fresh for significantly longer. Accurate and independent temperature control of the fridge and freezer compartments is ensured by DuoCooling: two separately adjustable cooling circuits. There is no air exchange between the refrigerator and freezer compartment, so that odours cannot be transferred and the stored food is prevented from drying out.

Both **BioFresh drawers** are mounted on **telescopic rails** which extend effortlessly providing a full view of your food, which is easily accessible. The lateral **LED light spots** ensure perfect illumination of the drawers. The versatile glass/bottle shelf can be used depending on your personal preference. The glass on top gives you shelf space, and the glass underneath gives you bottle space.

Our professional **NoFrost technology** makes defrosting a thing of the past. The CBN(es, be) 6256 NoFrost food centres are a highly energy efficient A++ rated appliance. The **two pull-out freezer drawers** are mounted on high-quality **telescopic rails** and can be effortlessly extended to provide a perfect view and ideal storage conditions.

The elegant, high quality **GlassLine interior** is adaptable to suit individual requirements. The satin-finish shelves and door racks with solid aluminium trims are height adjustable. The door interior accommodates tall bottles and wide containers.

01

Stainless steel panels

The use of the stainless steel panels requires a 90° hinge limitation. The panels will interfere with the adjacent gable or panel at 105° opening angle. The "Door stop pins" are required.

03

Water filter

Replacement for the integrated water filter. Provides perfect water quality every time in appliances with an IceMaker. The electronic control unit indicates when the water filter needs to be replaced.

Water filter	7440 002
--------------	----------

04

Cold storage accumulator

The freezer compartments of fridge-freezers are protected in the event of a power failure by the cold storage accumulator. This acts as an additional 'cold reserve' to prevent the temperature from rising in such circumstances, and thereby protects the frozen produce.

Cold storage accumulator	7422 838

10 good reasons to choose LIEBHERR

1 Know-how that matters!

LIEBHERR is a specialist refrigeration manufacturer in both the domestic and commercial markets and has been developing and innovating product solutions for over 60 years. No other refrigeration appliance manufacturer secures greater brand loyalty from its customers than LIEBHERR, and knowing this motivates us to keep on delivering appliances that merit their confidence and trust.

2 Optimal product quality

To guarantee consistent product quality, LIEBHERR always uses the very best materials and components in the manufacturing of its appliances. Every appliance is tested for quality and functionality during production. Continual product development, optimised components, and superb workmanship ensure that Liebherr's reputation for quality and long-lasting appliances is never in doubt.

3 Innovative ideas

With its range of over 300 models, whether freestanding, under-worktop or built-in, Liebherr provides the perfect solution for food storage and freshness for almost every customer with its refrigerators, freezers and combined fridge-freezers. LIEBHERR appliances boast a compelling array of innovative ideas. Take, for example, the appliances with user-friendly Touch-electronic navigation feature, or trend-setting LED lighting, convenient IceMaker with TwistTray, or GlassLine shelves for versatile use.

4 Classic design

LIEBHERR refrigeration and freezers meet outstanding design criteria by combining excellent materials (premium-quality stainless steel, precision electronics, and exquisite GlassLine fittings) with classic contours, to produce a timeless elegance. Stainless steel doors with SmartSteel reduce the visibility of finger marks and are very easy-to-clean and far more scratch-resistant. The slimline door handles with integrated opening mechanism in stainless steel or white are fitted at a convenient height for easy opening.

5 Environmentally friendly

LIEBHERR takes environmental responsibility seriously, and our ActiveGreen philosophy is applied right from the beginning of appliance development right down to the finished product. Not only does Liebherr use the highest-quality components to build appliances that are reliable, durable and energy efficient, but also Liebherr ensures all plastics are labelled for optimum recycling. Further, all manufacturing processes are designed to use resources efficiently, e.g. heat generated during production is recycled and reused as heating energy for office buildings on the production premise. All European manufacturing sites are certified in accordance with the international environmental management standard ISO 14001.

Active
Green

6 Outstanding energy efficiency

A⁺ A⁺⁺

With innovative precision electronics and unequalled refrigeration performance, LIEBHERR offers highly economical appliances across its product range. All product groups feature models that fall into the top energy efficiency classes, providing great savings all round.

7 BioFresh – definitely healthier

Bio
Fresh

BioFresh provides the perfect climate for long-lasting freshness. When stored at a temperature slightly above 0 °C and at the correct humidity level, fruit and vegetables, meat, fish and dairy products all retain their vitamin content, delicate flavour and appetising appearance significantly longer than in a standard refrigerator. The BioFresh-Plus technology provides yet more flexibility for tailored storage. The separate BioFresh-Plus electronic control system allows the temperature in the adjustable drawer at +6°C to be lowered to -2°C.

8 NoFrost – professional freezing quality

No
Frost

No more defrosting: LIEBHERR's NoFrost technology provides rapid, fan-assisted, frostfree freezing that gives professional standard, long term freshness. Food is frozen by chilled circulating air and humidity is expelled, ensuring that the freezer remains ice-free and preventing produce from frosting over.

9 Perfect climate for fine wines

Wine

LIEBHERR's wine cabinets and multi-temperature wine cabinets are designed specifically to store wine in its optimum environment. This range features state-of-the-art electronic control systems, heating and cooling circuits, special vibration free compressors and a host of features such as tinted glazed doors, activated charcoal filters and solid hand crafted wooden shelves on telescopic rails.

10 Awards given to the range

The outstanding product and design quality of LIEBHERR appliances is confirmed again and again by independent organisations. The integrated ECBN 5066 fridge-freezer won Plus X Seals of Approval for High Quality, Design, Ease of Use and Ecology. This model also received the Good Design Award. The CBNes 6256 French door fridge-freezer has also been recognised with several awards including the IF Product Design Award and the reddot title 'Best of the Best'.
